

Recovery of Linear Double-Stranded DNA as a Function of Vacuum Pressure

FIG. 1

100240 " 1999/60

Recovery of Linear Double-Stranded DNA as a Function of Inert Solutes

FIG. 2

Recovery of Linear Double-Stranded DNA as a Function of Buffer Composition

FIG. 3

Recovery of a Small Linear Double-Stranded DNA as a Function of Cations

FIG. 4

09765161-042004

FIG. 5

Recovery of Linear Double-Stranded DNA as a Function of Condensation

FIG. 5

097661-0000 "T9T99/60

FIG. 6

Recovery of Linear DNA is Independent of Strandedness

FIG. 7

Recovery of RNA as a Function of pH and Salt

FIG. 8
